Re: Docket #98N-1038  
Irradiation in the Production, Processing and Handling of Food

Dear Sir:

This is an

**Anti-Irradiation**

letter from a Christian Patriot who loves his country — but hates our government for revoking our Constitution with Harry Truman's Proclamation on October 31, 1945 listing our United States of America under the United Nations Charter and "We the People".

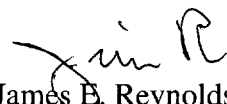

There is no need for irradiation of our food if the Food and Drug Administration would inaugurate and maintain the standard set by the

***Meat Inspection Act of June 30, 1906***  
**A guarantee to the supporting taxpayer for**  
**Wholesome Food.**

Irradiation serves only one purpose:

**to secure for those who control the**  
**Market Place**  
**a longer shelf life for their food products regardless of what it does to the**  
**health of the American Consumer.**

My pleasure,

  
James E. Reynolds  
Christian Patriot
